

PE Sports Premium Funding Expenditure Percentage Breakdown 2020 – 2021

Over the course of the academic year 2020-2021, Corsham Primary school received £21,500 as part of a government funded initiative - the PE and sports premium. We also had a carry over of £4500 from the previous year due to COVID19 restrictions and Lockdown. The funding is as a result of the 2012 London Olympics and part of the Olympic legacy. The aim of the initiative is to improve the quality, variety and general provision of PE at primary schools.

The graph below shows a percentage breakdown of how Corsham Primary School used the funding to improve the quality, variety and provision over the academic year 2020 -2021

PE Sports Premium Funding Expenditure Percentage Breakdown.

Staff Training CPD

All teaching staff at Corsham Primary School answered a questionnaire in order to identify teaching strengths and weaknesses. Ten teaching staff received coaching and mentoring from an outside agency of fully qualified teachers and sports coaches, on a given unit suitable for their year for a six week period on a scheme called Real PE or more traditional sports using The PE Hub schemes of work. These lessons were observed regularly in order to monitor their impact and ensure their quality.

Resources and Equipment

Corsham Primary used part of the funding to replace and improve the resource available to improve the provision of PE. We took out a three year subscription with The PE Hub. Old equipment has been replaced and new equipment bought to increase the variety of sports offered as part of the school's curriculum.

Increasing Participation, Variety and the amount of Competitive Sports

Some of the funding was meant to be spent on this area. Unfortunately due to COVID restrictions and year group bubbles not as many clubs were provided during the academic year. The opportunity for children to participate in partnership with other local schools in our cluster, did not happen due to restrictions. However, we did manage some Intrasport competitions between year groups and the two site which was a huge success, along with one against the other schools in our MAT. Sports days did go ahead at both sites and events were changed to give every child the opportunity to participate.

Monitoring Impact & Stationery and Materials

Money was also spent on monitoring the impact of the expenditure and on stationery and materials to aid the delivery of PE.
